

Castle Crafts

Egg Box Bugs

What you'll need:

Egg cartons (cardboard)

Paint

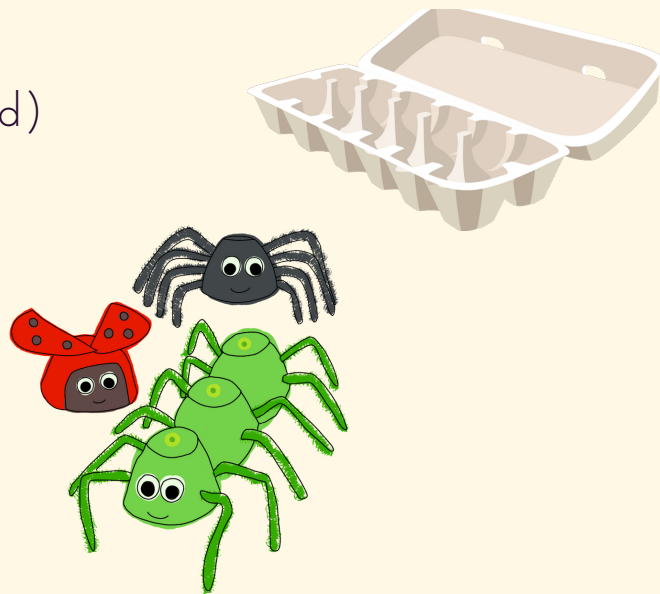

Paint brushes

Scissors/craft knife

Googly eyes

Pipe cleaners

Glue

Making the bugs

1. Cut out the bug bodies - 4 cups or more for caterpillar and millipedes, 3 cups for an ant, 2 for a beetle or ladybird and one for a spider.
2. Paint the cup(s) for the body and leave to dry.
3. Once dry use the craft knife/scissors to make holes for legs, antennae and wings.
4. Add in the pipe cleaners as legs, antennae and wings (you can use card to make wings instead if you like).
5. Glue on googly eyes (you can paint these on too).
