

# HIGHCLIFFE CASTLE

## Winter Scavenger Hunt

Lord Stuart de Rothesay had a wife called Lady Elizabeth and two daughters named Charlotte and Louisa. They all enjoyed their nature walks around the Castle and its grounds. The girls walked in the woods and along the beach and would have seen many of the same things you can see today!

Winter is a great time to get out exploring. Things look, feel and smell very different to other times of the year. Your challenge is to notice what you see when you go out for walks & record your scores.
